Ideation Phase
Brainstorm & Idea Prioritization Template

Date	28 September 2026
Team ID	SWTID-2026-2169
Project Name	Import Data Using Transform Map
Maximum Marks	4 Marks

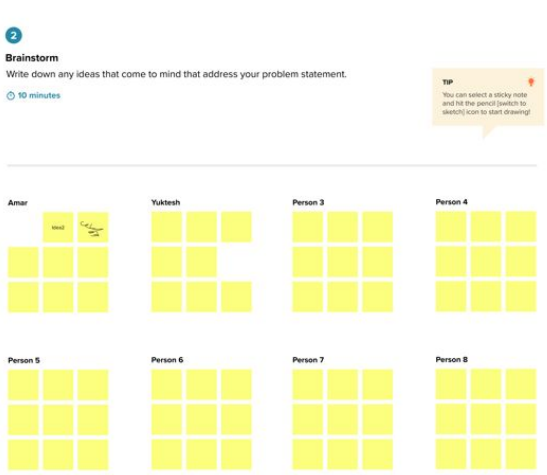

Brainstorm & Idea Prioritization Template:

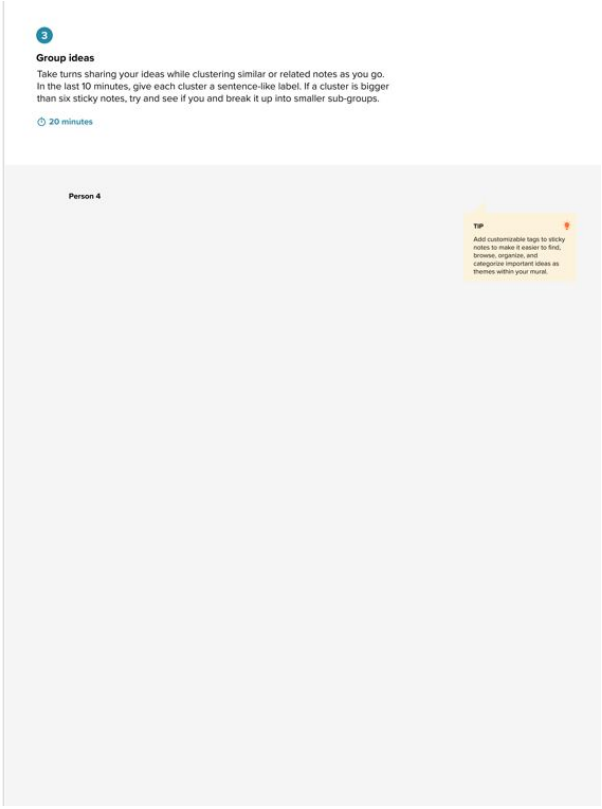

Brainstorming gives the team a free and open space where everyone can take part in the creative thinking needed to solve the problem of importing data into Service Now. Quantity of ideas matters more than quality at this stage, so unusual ideas about uploading files, mapping fields, preventing duplicate records and fixing failed rows are welcome. Every team member is encouraged to build on each other's suggestions to create many practical solutions for a smooth import using a Transform Map.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Step-2: Brainstorm, Idea Listing and Grouping

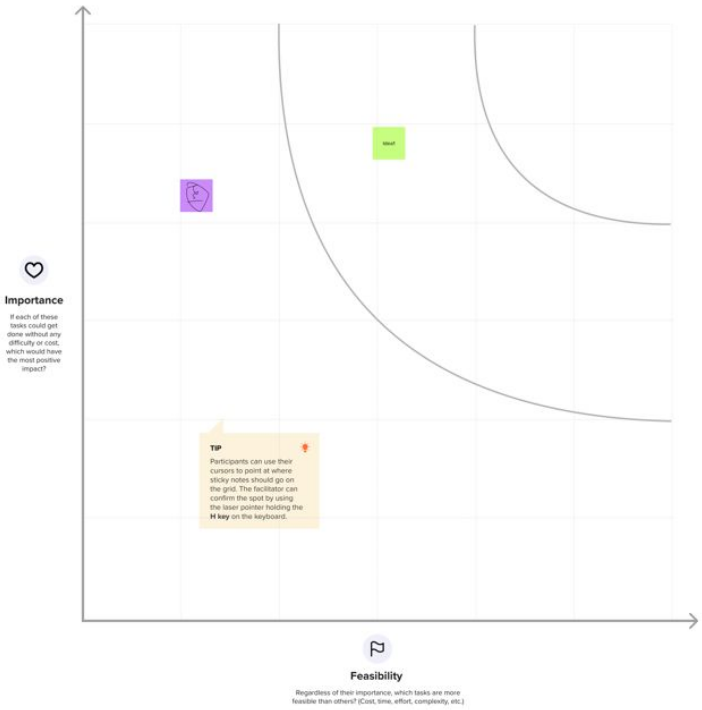

Step-3: Idea Prioritization

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Importance

If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)
